## Carrer Objective

I am a full-stack (MERN) Web Developer located in Bangladesh. I love coding. While I'm doing coding I enjoy it. Also, I'm a quick learner. I love to be around positive thinkers, which makes me stay positive even in adverse situations. I believe everything is an Art when you put your consciousness into it. You can connect with me via social links.

## Projects

**BIKE-SELL** - [Live site link](#) || [client-site-code](#) || [server-site-code](#)

**Technologies:** React JS, Node JS, Node Express, MongoDB, Firebase, Tailwind, Heroku.

### Project Review:

- A full-stack web application based on MERN.
- This is an e-commerce website. Users can order any kind of bike and they see they are orders in the dashboard if the user login.
- This website customized the admin panel and the admin can delete orders, update orders or add products.

**Resort-** [Live site link](#) || [client-site-code](#) || [server-site-code](#)

**Technologies:** React JS, Node JS, Node Express, MongoDB, Firebase, React-Bootstrap, Heroku.

### Project Review:

- On this site, users can book resort if they user log in
- Users can manage their booking and if needed users can cancel the booking.
